Kristine and Chip:

I left a voice message for Chip regarding this issue. I think it would be great if we can talk and co-generate the agenda for the meeting. Obviously, the LWG will be presenting info on the RALs process, the RALs themselves, how SMAs are crafted based on RALs and various times to achieve them, and the comprehensive list of alternatives we plan on taking through the detailed evaluation of alternatives. Per EPA request, we are also planning on presenting some examples of graphs and figures that will be used in the detailed evaluation.

Please call me and we can discuss the detailed agenda, and then get one circulated to all interested parties. My cell number is (b) (6).

Thanks, Jim.
